

HOW COVID-19 IS AFFECTING OUR OPERATIONS

We provide an essential service within our communities and strive to meet our customer commitments. At American Waste, we have developed and implemented business continuity plans to ensure our operations run as effectively as possible.

We are taking all necessary precautions and actions to protect the health and well-being of our customers and employees, to limit the spread of the coronavirus, and to deal appropriately with any operational and staffing issues.

To help us keep our team members safe and minimize exposure and risk during the COVID-19 pandemic:

Please bag **all** of your trash. We cannot service any loose trash.

If you have an American Waste trash bin, all bags of trash must be kept **inside**.

American Waste continues to run routes as usual under Governor Whitmer's Executive Order. We do not anticipate any changes to our waste service levels at this time. Waste collection is designated as an essential service by Homeland Security. It is vital for protecting the health and safety of the communities we serve.
